University College, Oxford – Summer Study Day

University College, Oxford is currently accepting applications to its upcoming **Maths and Physical Sciences Study Day** on 28 July. This event is an opportunity for students who are considering applying to Oxford, or another high tariff institution, for one of the following subjects to experience taster lectures, speak with current students, and ask any questions they may have about the admissions process:

- [Maths](#) (and its joint degrees)
- [Chemistry](#)
- [Physics](#)
- [Earth Sciences](#)

This event will include a mixture of pre-recorded material for students to access at their own pace as well as live sessions between 14.00 and 16.30 on Wednesday 28 July. [Click here to apply](#). Applications close at noon on 19 July.

MMS UK - Design Engineer Apprentice Position

MMS UK, an innovative manufacturing company based in Guiseley, Leeds, have an opportunity for someone to train within the production department at MMS UK.

MMS UK specialise in machinery for the clothing industry and design, develop and manufacture the special purpose machinery which is exported throughout the world to companies manufacturing for key brands such as Burberry, Marks and Spencers, Hugo Boss and many more. As a Design Engineer Apprentice, you will be given training in the manufacture of components using CAD/CAM software (Fusion 360), workshop machinery, CNC machines and hand tools.

The successful applicant will learn all the mechanical, pneumatic and electrical skills required to build the hi-tech machines produced by MMS UK. If you are interested in this opportunity, please apply to Mason Small ms@mmsuk.com explaining why you feel you would be suited to this role.

Russell Group Universities

The Russell Group comprises 24 universities with a shared focus on research and a reputation for academic achievement. For more information on what this means and for a full list of those universities [click here](#).

MOOCS

Whether you are preparing for your university course, want to add a little wow to your personal statement or just want to expand your learning, we recommend completing a MOOC (Massive Open Online Course) if you can. [Future Learn](#) offer a host of different free courses so you are bound to find something relevant to your aspirations. Don't be put off by how long they say the course takes, you'll find it doesn't take as long as specified.

Advanced Mathematics Support Programme – Transition to University Course

The Advanced Mathematics Support Programme ([AMSP](#)) at Leeds University is offering Year 13 students access to a Transition to University Course. This course supports students who have studied A Level Mathematics and are progressing to an undergraduate degree course in Mathematics, Physics or STEM related subject.

The course will consolidate essential A Level Mathematics skills and cover topics that will be encountered early in these university programmes. The course also includes suggested wider reading to explore these themes in greater depth.

The course began on 28 June but you can join now and assess all past topics and all future topics as they become available. [Click here](#) to create a free account and access resources.
