Dear Parent/Carer

## End of Year Common Assessment Tasks (CATs) for Years 7, 8 and 9

### Monday 2 June to Friday 13 June

The end of year Common Assessment Tasks (CATs) will take place in normal timetabled lesson time between Monday 2 June and Friday 13 June. Individual class teachers will inform students of the exact date and lesson for each assessment nearer the time.

This is the final, formal assessment of the year. It gives students the opportunity to demonstrate what they have learnt in each subject over the year.

Subject teachers will guide your child through the process. Lesson time will be used to tell students what they can expect in each CAT and how long it will be. In the run up to the CAT, home learning will be focused on specific revisions activities. All resources will be available for students in Showbie.

Students will know what topics and skills will be tested in each assessment and will be advised how best to prepare.

To help you to support your child at home we have attached a short guide which outlines the key guidance that students are given in school.

If you have any questions, please contact the relevant [Year Manager](#).

We wish students every success in their assessments.

Yours sincerely

# Effective End of Year CAT Preparation in 3 Steps

*Strengthen your memory:*

*To help keep information in, practise getting information out.*

## Step 1

Start with your information page, produced from memory and then developed by looking at your exercise book and showbie

- Use a blank sheet of paper to add everything you can think of that is relevant to a topic you have chosen from your studies this year.
- Organise the information in any way which is best for you. For example, a mind map connecting key words or a spider diagram with the topic in the middle, lists.
- When you have added everything, you can to your information sheet, look up the topic in your exercise book and in showbie. Add anything that you have missed, ideally in a different colour.

## Step 2

Make some questions and answer flashcards on paper (questions on the front and answers on the back) or create a Quizlet.

Use your memory retrieval sheet to help you make flashcards/quizlet.

## Step 3

Test yourself or get a friend or family member to test you! Try Seneca, KS3 Bitesize, Quizlet, Educake, or Sparx Maths as well as Socrative quizzes available in your Showbie folders.
